Informational Forum:

Landscaping for Water Quality

October 23, 2018 | 7:00pm-9:00pm

Skaneateles High School Auditorium | 49 E. Elizabeth St., Skaneateles, NY 13152

Receive easy-to-use homeowner's guides!

Learn from experts in the field!

Learn how to make small changes that will help the water leaving your property have a positive impact on water quality in our community.

Presentations by:

Matthew J. Biondolillo, CERP, PMP Environmental and Ecological Consultant

Sustainable shorelines— learn how to design a landscape that works to protect water quality and reduce erosion without losing space to recreate and enjoy.

Donald J. Leopold, PhD. - Chair and Distinguished Teaching Professor, SUNY ESF.

Native Plants for Sustainable Landscapes- will highlight native species that are no maintenance, resilient, and ecologically valuable. Applicable to home gardens, urban areas, and large scale restoration.

NYS Department of Environmental Conservation (NYSDEC)— Overview of the NYSDEC Nutrient Runoff Law and Fertilizer/ Phosphorous restrictions.

Event is **free** and open to the public. Resources will be provided for attendees who pre-register. Please follow the link below or scan QR code to register.
