**Subject:** Skaneateles Springs - East Genesee Street - extension

Karen

I understand that the Skaneateles Springs approval will expire in September if a building permit is not secured. I respectfully request that the time period be extended. while Rick will be presenting an amendment which will downsize the project, we will be retaining a number of the stormwater and grading solutions of the original approval. To be candid, part of the reason for the delay has been the workload of this office to focus on the revised design.

Respectfully submitted,

Bob Eggleston
